

REGGAE DISC WANT LIST

DECEMBER 2017 VOL, 7

About want list price:

Please send your items with this list and highlight which titles you wish to sell or email or call us in advance to let us know the details. Please note that if there is no mention there could be a gap between the listing price and our offering price.

- Conditions (our grading system)

Records that are in normal playing condition, our grading is based on appearance and it starts with M, EX, VG, G with plus or minus added meaning above or below. *Note if the record is in good playing condition although the appearance is below standard then it will be graded lower. On the other hand even if the record looks clean, it sounds worse than standard then it will be graded as "Noisy" .

- About want list price and conditions

- Our listing price only applies to first pressings that are in decent condition according to our grading system. Price varies greatly by records' appearance (groove, label and cover). Records in terrible condition won't be applicable for the listing price.
- Prices on 60's items refer to those around VG+ grading. We offer better price on those above EX.
- Prices on 70's & 80's items refer to EX grading. Anything below this grade won't be applicable.
- Depending on our stock situation, listing price may not be applied sometimes. It may also expire without further notice.

- Methods of selling
